

Ideal for smart cities,
transportation hubs,
and demanding digital
signage scenarios.

POWERED SOLUTIONS

TFT / LED DISPLAY TECHNOLOGY

High-Performance Outdoor TFT Displays Our outdoor TFT range (42" to 55") is engineered for continuous 24/7 operation in all weather conditions. Available in single- or double-sided configurations, these displays feature ultra-high brightness panels with independent optimization, ensuring perfect readability from direct sunlight to total darkness while maximizing energy efficiency.

Versatile Mounting Solutions:

- **Flag-Mounted:** Easily installed on poles or walls.
- **Suspended:** Perfect for under-canopy installations.
- **Integrated:** Compatible with custom structures, such as H-frames.

Smart & Interactive Capabilities:

- **Interactive Totem Mode:** Supports advanced user interaction.
- **Transactional Features:** Integrated POS systems for payments and RFID card reading.
- **AI-Powered Security:** Facial recognition and anti-vandalism monitoring.
- **Connectivity:** Flexible options including LTE, Ethernet, and custom interfaces.
